

THE ANTIOCH NEWS.

VOL. XXIX.

ANTIOCH, ILL., THURSDAY, MAY 4, 1916.

NO.

\$2,500,000 FOR ELECTRIC ROAD IS BID

New York Capitalist Will Furnish Money in Backing Railroad Syndicates

REVOKE FRANCHISE RIGHTS

The Illinois properties of the Chicago & Milwaukee Electric Railroad company when sold under the hammer at Waukegan Monday brought the big sum of \$2,500,000. The properties were sold by Charles B. Harrison, special master in chancery, to members of the reorganization committee of the railroad.

F. J. Clinch bought in the properties, but when he gave his bid he announced that he was buying the properties in behalf of J. A. Vath and Chas. White, members of the reorganization committee. But one other big offer was received by one special master in chancery. John Griffith, a bond holder, sought to buy in the properties for \$2,100,000. Griffith is the man who is given credit for having the first sale of the properties thrown out of the federal court, and at this hour he is said to hold a claim of \$50,000 against the company, made as a result of the receivership litigation.

The east line, or that piece of track from Evanston to the North Chicago junction and including the Libertyville branch, brought the sum of \$2,250,000. Clinch bid in the property at that figure. Joseph W. Moses, on behalf of Mr. Griffith, sought to buy the east line for \$2,000,000. His bid was immediately added to the selling price by Mr. Clinch.

The west line, or that piece of track from the North Chicago junction to the Winthrop Harbor, was sold to Clinch for the sum of \$250,000. Jos. W. Moses, on behalf of Mr. Griffith, sought to buy this piece of track for \$200,000.

Richard H. Hollen and John A. Massey, lawyers practicing in Chicago, served notice on Chas. Harrison, special master in chancery, and on the men who submitted bids, that Chicago & Milwaukee Electric Railroad company had failed to perform many of the things required to be done under the conditions and provisions of the ordinance passed by the city of Lake Forest on the 12th day of July, 1906 and of the contract and agreement made and entered into between the said city of Lake Forest and Albert C. Frost, and that by reason of the alleged default and failures the city of Lake Forest and on the 7th of December, 1909, passed an ordinance forfeiting and terminating the rights of the electric company. He explained to the special master in chancery that by reason of the revocation of the said ordinance, that there exists no franchise, license or right from the city to the electric line at this hour.

New York and Chicago bankers have agreed to buy \$4,500,000 first mortgage 5 per cent bonds of the Chicago & Milwaukee Electric to provide funds for the reorganization committee, which bought the road when the Illinois properties were sold in Waukegan at 11 o'clock Monday morning and the Wisconsin properties at Racine at three o'clock that afternoon.

New securities will be issued in exchange for the \$4,000,000 Chicago & Milwaukee Electric, Illinois division, bonds and the \$10,000,000 Wisconsin division bonds. The terms of the reorganization, provide for the payment in cash of the \$1,145,000 receivers' certificates and the \$1,080,000 underlying first mortgage, Illinois division, 5 per cent bonds. The bonds will be called at 105. The capital stock of the company will be nominal and the old stockholders will receive nothing.

Dies of Hemorrhage

Arthur Odell of Sugar Bush, Wis., employed as a news agent by the Soo Line railroad, was stricken with a hemorrhage Sunday evening as the train on which he is employed neared Burlington and died about an hour later. He was taken off the train at Burlington and rushed to the nearest doctor's office. He died before he could be given medical attention. The train upon which Odell worked is commonly known as the Minneapolis train. He is quite well known by a number of people in this vicinity.

DR. J. E. KARR PASSES AWAY AT DETROIT, MICHIGAN

A telegram was received here Tuesday telling of the death of Dr. J. E. Karr, which occurred at the home of his son Lee, at Detroit, Mich., at eleven o'clock Tuesday morning. The remains accompanied by his wife, son Lee and daughter Mrs. Taylor arrived here this (Thursday) forenoon for burial in the Hillside cemetery, this village having been his home for many years.

The funeral services are to be held in the M. E. church this afternoon at 2 o'clock, with Rev. E. J. Aikin of Chicago Lawn in charge. The members of Sequel Lodge A. F. & A. M., of which he was a member will have charge of the services at the grave. The members of the I. O. O. F. are to attend in a body.

The deceased was one of Antioch's best known citizens up until about ten years ago when failing health compelled him to seek a change of climate. Since then he has not remained here for any length of time, but his kindly encouraging words and generous charitable disposition has never been forgotten in the many households, which as a physician he was called upon to enter. His name was upon the roll of the membership of the Antioch M. E. church for many years. His untiring work as a member of the official board, his constant attendance at the church services, his aid in the choir and his generous contributions all went to help this church through the struggles of its early existence. He gave freely of his time and was a substantial financial aid in the erection of the present structure, and it is with regret that his many friends here meet to conduct him to his last resting place.

WHAT DOES

"SPEED LIMIT"

SIGNS MEAN?

Well, to come right down to business, we will say that Antioch is about as nice a place to spend the summer months as you will find anywhere, and there must be some truth in it, for we would not have the great number of people coming here year after year by train or auto if this wasn't some big recreation place for tired and weary ones. People who come and spend time and money for a few days' rest, especially those who take the train, sure do cut a figure around this locality.

Of course we know it is nice to ride fast, but Oh! how many suffer the consequence of speeding "Speed Limit, ten miles per hour," is the sign that faces you at the city boundary, and in the next ten minutes a dozen cars go by you at twenty miles an hour. We should say, off hand, that hardly one community out of fifty lives up to its automobile regulations. Sporadic enforcements of local laws is a constant source of grief to motorists. You cut across the street intersection forty-nine days in succession, and on the fiftieth day are arrested for not turning a square corner. Naturally you are offended.

Another affliction is the absence of signs. In these towns you may park your car anywhere you please. In others, of the same general aspect and with no warning sign. You may be arrested for leaving it on a certain street, or too near a fire plug. Your muffler cut out is a tolerated nuisance in half a dozen towns, while in the next one it's use is a misdemeanor; but there is no sign to tell you the different signs, cost little too. The beginning of automobile regulation for any town should be: "Say plainly what you mean and stick to it."

Bankers File Sixty-five Affidavits

As was expected in the trials of Charles R. Carpenter and B. H. Hinkle, officials of the defunct Racine bank, affidavits of prejudice were filed before Judge Belden last Friday. They were sixty-three in number and were signed by citizens of Racine, Kenosha and Walworth counties, Wm. Meadows, S. M. Reinard, John T. Rice, E. C. Mealy, T. J. Cunningham and Louis F. Reuschlein of Burlington, Wis., signed affidavits.

The affidavit not only alleges that the people of Racine, Kenosha and Walworth counties in this court circuit are prejudiced against both defendants but goes farther and charges that District Attorney Wm. W. Storms is antagonistic toward Carpenter, personally, for the activity displayed by the former cashier of the Commercial & Savings bank in liquidating certain demand notes and an overdraft held by the bank against the district attorney.

District Attorney Wm. Storms has been granted two weeks time in which to secure and file counter affidavits.

TO SERVE ON COMMITTEES

Board of Supervisors Meet Wednesday and Read Assignment List

ROAD IMPROVEMENT NEXT

Members of the board of supervisors were given notice Wednesday morning of their assignments for the ensuing year, when Chairman J. E. King directed the clerk to read the list.

The choices of the chairman met with general approval and his selections show Waukegan's representatives to have been placed upon important committees, with several being tendered important chairmanships.

List of the committees and personnel of each, follows:

County farm—Webb (Antioch), Paddock, Thompson.

County farm auditing—Murphy, Crapo, Ficke.

Erroneous assessments—Burgess, Clerk Barnstable.

Elections—Martin, Hutton, Conrad, Education—Conrad, Rockenbach, Webb (Waukegan).

Fees and salaries—Thompson, Webb (Antioch), White.

Finance—Vercos, Maether, Bairstow, Judiciary—Hutton, Webb (Waukegan), McCullough.

License—McCullough, Meyer, Kirschner.

Lake county general hospital—Stratton, Meyer, Holdridge.

Lake county general hospital auditing—Maether, Barnstable, Paddock.

Miscellaneous claims—White, Clark, Eger.

Poor (W. S. & D.)—Dilger, Thompson, Webb (Antioch).

Poor (balance of county)—Holdridge, McCullough, Burgess.

Printing—Ringdahl, Dilger, Murphy.

Purchasing—Kirschner, Vercos, Rockenbach.

Public buildings and grounds—Clerk, Crapo, White.

Public buildings auditing—Eger, Vercos, Burgess.

Resolutions—Webb (Waukegan), Martin, Hutton.

Roads and bridges—Bairstow, Ringdahl, Ficke.

State charities—Crapo, Dilger, Martin.

Swamp lands—Barnstable, Stratton, Holdridge.

Settlement with county treasurer—Paddock, Stratton, Eger.

Settlement with county clerk—Ficke, Maether, Bairstow.

Settlement with sheriff—Meyer, Conrad, Murphy.

Settlement with circuit clerk—Rockenbach, Ringdahl, Kirschner.

Question of improvement of Lake county highways occupied a prominent part in the discussions of the morning.

Communication was read from the state highway commission, calling upon the commissioners to decide upon and designate the state aid roads to be improved next year.

Members of the road and bridge committee will look into this matter and report to the board in June, and the results of their findings will probably be ratified and the selections made known to the state commission.

Permit to Build Two Bridges

At the request of the village of Fox Lake and Grant township, the county board Wednesday morning granted permission for the spanning of the Fox river and the Nippersink channel at a point close to Fox Lake.

A communication to this effect was received by the supervisors. Representatives of the township and the village spoke in favor of the project, and members of the board of supervisors advanced the step.

By the spanning of the channels at that point, a drive of nearly twenty miles will be eliminated. At the present time, those who reside to the northwest of the lake, are forced to make a wide detour in order to reach a bridge spanning channels of the chain of lakes and the construction of the spans at the point designated in the communication, will be appreciated as a great saving of time.

Daily Thought

It is one thing to show a man that he is in error and another to put him in possession of truth.—Locke.

FARMERS UNITE FOR SIX CENT MILK

The formation of a \$500,000 corporation, designed to eliminate the middleman in Chicago's milk supply and which farmers predict will make 6 cent milk a possibility, was authorized Tuesday at a meeting of the Milk Producers' association at the Hotel Morrison.

At the same time Ira J. Mix, head of the Ira J. Mix Dairy Company held a conference with Health Commissioner John Dill Robertson, at which he announced his intention of reducing his milk from 9 to 8 cents for quart bottles. This leaves only the Borden Condensed Milk company now charging the higher figure. Mr. Mix informed the health commissioner he was losing customers by charging 9 cents.

The new corporation of the farmers is to be known as the Milk Producers' Co-operative Marketing company. It is planned to perfect immediately an organization which under the articles of incorporation has the right:

To produce and sell milk and cream and all by products.

To operate condensing, skimming, pasteurizing and bottling plants and factories for the manufacture of cheese butter and other products.

To manufacture and sell farm machinery and implements used in the production of milk as well as appliances for storing and marketing.

To cultivate and sell grains, seed and feed.

To breed and deal in domestic animals.

The capital stock of \$500,000 will be subscribed in 10,000 shares of a par value of \$50 each. Twenty of the twenty-five directors of the association, representing 9,000 dairymen in Illinois, Wisconsin and Indiana, attended the meeting. R. B. Swift of Libertyville, president, said the matter probably would be submitted to the rank and file of the organization for a referendum.

No person will be permitted to purchase more than five shares of stock.

Plans for the corporation have been under way for more than a year.

NO DECISION

IN AVON CASE

TILL MAY 13

Question of whether Avon's wet and dry election will be held invalid is still undecided, though the hearing upon the petition to that effect was held in the county court before Judge P. L. Persons Wednesday morning. The case was continued until May 13.

It is hoped by that date, the supreme court will have ruled upon the question of women to vote at wet and dry elections. This case is now pending before them, taken there by appeal from the appellate court at Springfield, which held they had this right.

At the hearings, the defendants moved to strike the amendment to the petition as well as to strike the petition itself, but the judge overruled the motion.

Attorneys for the petitions, five saloonkeepers of Avon township, maintain that in the voting on April 4, several of those cast ballots including many women, were not qualified voters. The amended petition attacked the right of all the women to cast their ballots.

Avon went dry by nineteen votes, with the women turning the tide election.

New Liquid Will Displace Gasoline

Leulis Enricht, a chemist and inventor of Farmingdale, Long Island, has claims to have, a liquid that will make gasoline a thing of the past; put automobiles within every one's reach and break the Standard Oil company's control of the petroleum market.

Four ounces of this transparent greenish liquid, Prof. Enricht says, mixed with five gallons of water, will make five gallons of motive power more stable and explosive than gasoline. And the preparation, exclusive of the water will cost one and one-fourth cents per gallon.

He has been working on this fluid for three years, the chemist says and since solving it he has been driving his two automobiles about the little village.

The ingredients are so simple that any layman can mix them. "The idea I have," said Prof. Enricht, "is to get the government to pay me an award for the discovery as a public benefit. Failing this, I may try to interest the automobile makers."

"Would I sell it to Standard Oil company? I would not."

Not What He Wanted

I had taken my little nephew to a restaurant for dinner. When the waiter put the menu down in front of him, he picked it up and handed it back to him, politely. "We don't want any thing to read, thank you, we want something to eat."—Chicago Tribune.

SHORT ITEMS FROM OUR EXCHANGES

Clippings Taken From Articles Concerning Many Towns and People of Interest

WHAT OTHERS HAVE TO SAY

According to corrected reports Kenosha sold \$987.51 worth of Red Cross Christmas seals last December and is entitled to second place for sales in Wisconsin.

Jallus Bartlett of Lake Geneva, paid a fine of \$100 after pleading guilty in federal court in Milwaukee to having offered for transportation a dead cow in a shipment of live animals.

Wisconsin now boasts of having more cow testing associations than any other state in the union. There are now 45 associations that have a total membership of over 1,200 dairymen and 25,000 cows are being tested.

Something of what it costs Kenosha county people to pay the "emergency tax" was shown in the office of the register of deeds on Tuesday when stamps to the amount of \$407 were placed on a single transfer.

Perhaps the finest drove shipped from the Hebron years was loaded last Thursday by Wm. Gunter, who purchased for Green & Beatty, 34 head of fine fat hogs of John Cairns, which averaged 335 pounds each. The price was \$9.25 per hundred.

Owing to the fact that not enough milk was received at the plant to keep same in operation, the Borden factory at Huntley has been closed indefinitely.

The newly organized Woodstock baseball club will wear last season's Chicago White Sox uniforms, the suits having already been purchased and very made.

The contract for the big drainage ditch, which is to start in Hebron township, has been let. Carpenter & Henderson of Chicago were given the contract for the 2 1/2 miles of digging for \$7,100. The tiling went to the Springfield Drain Tile company, Springfield, Ill., for \$28,316.

George Vogel, the popular auctioneer at Solon, has secured a lease on five acres of land on the right of way of the St. Paul road at Armsby, Ill., and is now engaged in the livestock business at that place. Vernon Jones has moved to Armsby and will look after Mr. Vogel's interest there.

Smith-Knudsen Wedding

A pretty home wedding was solemnized on Wednesday afternoon, April 26, at 4 o'clock, at the home of the bride's parents, Mr. and Mrs. Jens Knudsen, at Dwight, the contracting parties being their youngest daughter, Miss Esther Louise and Mr. Milton Raymond Smith, the only son of Mr. and Mrs. Jerome Smith of Odell, formerly of Channel Lake.

Rev. McClung, pastor of the M. E. church, performed the ceremony in the presence of only the immediate relatives of the young couple.

The house was tastefully decorated with carnations and roses, sweet peas and smilax predominating in the dining room.

The bride wore a pretty gown of white crepe de chine and carried bride's roses. Her going away suit was of navy blue, with which she wore a black and white hat. Both she and Mr. Smith were unattended.

After the ceremony a wedding supper was served.

Mr. and Mrs. Smith left on the 5:50 train the same evening for Chicago and other points where they will spend a short honeymoon. Upon their return they will make their home in Dwight.

Baseball—Wilmot vs. Antioch

The ball game will be played on Friday, May 6, on the Antioch Township high school grounds. Both are school teams and are well matched as they have played close games before. Antioch winner 2 out of 3 before, game called at 8:45 p. m. Admission 15c. Come out and see them play.

GIRL SHOT BY BROTHER AT GURNEE

On a cet in a little farm house near Gurnee lies an eight-year-old girl who is battling death as the result of a gun-shot wound she received late Tuesday afternoon when her 14-year-old brother pointed a gun, and pulled the trigger on a gun, he didn't believe to be loaded.

The victim of the horrible accident, Annie Van Landyke, eight-year-old daughter of farmers of that name live on the outskirts of the village.

Morris Van Landyke, Annie's 14-year-old brother, returned to the farm late Tuesday after an afternoon's hunt in hunting in the woods near his home he spied JWS playing near the woodpile.

Morris thought he had shot gun when he left the

so he raised the weapon and a at his sister. He pulled the trigger and the little girl fell to the ground with over 60 shots in her. Jolley of North Chicago was sent to the Van Landyke residence removed a larger number of the small pieces of lead. It is doubtful if the young girl will live. "Just another case of a boy pointing an unloaded gun at a relative."

The young man cannot be held accountable. It was an accident pure and simple, but the accident may cost his sister's life. "Will the girl live?" asked a reporter of Dr. Jolley. "We cannot tell at this hour," he replied.

As we go press we are informed that the child is getting along nicely.

JUDGE D. L. JONES

LEFT ESTATE VALUED

AT \$35,000.00

The late Judge D. L. Jones whose death occurred on April 23, left an estate valued at about \$35,000. This is indicated by a petition for the probate of the will which was filed in county court.

The estate consisted of \$20,000 in real estate and \$15,000 in personal property. The hearing on the petition for the probate of the will has been set for May 23 and the contents of the will will not be made public until that time.

A petition shows that Giles F. Jones, Harold E. Martin and George W. Jones were witnesses of the will. Elam Clarke and Wm. Farmer are named executors.

The petition for the probate of the will was made by Mrs. Mary Mabel Jones, the widow and Louis D. and George W. Jones, sons of the deceased.

School Contests

The annual contests for the schools of the town of Antioch and Lake Villa were held in the graded school last Friday, April 23. These contests are conducted every spring by the County Superintendent and one is held in nearly all of the towns of the county. The winners of these contests are to take part in a county contest to be held in June. There are contests in arithmetic, reading, writing and spelling.

In the contest here last Friday the schools were divided into two sections. Our school was grouped with section I. The winners in each contest were as follows:

Arithmetic—First, Lena Spafford; second, Carrie Christensen.

Reading—First, Luther Heister; second, Ralph James; third, Carrie Christensen.

Spelling—First, Irene Keulman; second, James Dunn; third, Carrie Christensen.

The papers from the writing contest were sent in for Mr. Faust to grade, hence we can not announce the winners of the contest.

We do not have the name of those of section 2.

Patron's Day

Elaborate preparations are being made for a grand Patron's Day to be held at our school, Friday, May 12. It is to be an all day affair with a big dinner for everybody. Committees have been appointed and they are all at work to make this a big day for Antioch.

The dinner will be in charge of the mothers of our school. A soliciting committee will call on the patrons of our school, asking them to help prepare something for this big dinner. It is hoped everyone will respond readily and try to make this a success.

In the afternoon a program of drills, songs, marches and athletic events will be given.

A Parent-Teachers association will be formed in the afternoon. We hope everyone of our district will try to arrange to be present. Come and bring your friends and enjoy a day with your school. Everything is to be free.

CONTINUE CHASE IRISH REBELS QUIT

WILSON REFUSES TO WITHDRAW
TROOPS FROM MEXICO UNTIL
VILLA IS CAUGHT.

SCOTT SERVED ON OBREGON

Scott Tells Carranza's War Minister
That Troops Will Leave When
Outlaws Have Been
Wiped Out.

Washington, May 3.—President Wilson will not withdraw from Mexico until Villa has been captured or killed.

Notification to this effect has been given to the Carranza government through General Obregon in conference with General Scott at El Paso, Juarez. The moment Villa's capture or death has been reported the United States will order every soldier home.

Further, the United States has no intention to remain in occupation of territory one moment absolutely necessary. It is no intention to penetrate beyond certain points.

In case the situation of the Carranza government, the president has ordered General Pershing to order forces under his command to station in northern Chihuahua on condition that the Carranza troops immediately display activity in the hunt for Villa and cooperate with the American forces in running him down.

More concern was expressed on Monday over the situation than at any time since the troops entered Mexico. General Obregon seems to have instructions of a precise character or his military mind does not permit him to depart from them.

General Scott, on the other hand, is empowered to use his discretion on all points save that requiring the continuance of American soldiers in Mexico until Villa has been caught or killed.

The authorities have some fear that Obregon, finding the president indisposed to withdraw, will terminate the negotiations. As Carranza must do what Obregon desires, it is apparent, the "first chief" will be compelled to back up his subordinate.

War would be the undoubted result of such a situation.

Therefore General Scott is expected to use all the diplomatic skill of which he is possessed to carry on the negotiations and finally to bring Obregon around to the view that the good relations of the two countries demand an adjustment of the differences which exist as a result of the failure to inflict punishment on Villa.

If the American troops can remain in Mexico until Villa and his bands have been exterminated, intervention, it is regarded here, would become a remote probability.

U. S. ARMY TO BE 250,000

House-Senate Conference Reach Tentative Decision for Peace Force of 180,000.

Washington, May 3.—Substantial agreement with the senate's plan for army reorganization was reached on Monday by the senate-house conference on the military bill. It was considered a marked triumph for "big army advocates."

A regular army of 180,000 men at peace strength has practically been agreed on by the conference. With this plan for expansion as provided in the bill which has passed the senate, this would produce an army of about 250,000 men in war strength. The bill as it passed the senate fixed the peace strength at 250,000 men.

The agreement on the size of the army is tentative and dependent on settlement of other features of the bill.

NO FREEDOM FOR PHILIPPINES

House Votes to Eliminate Provision of Bill Authorizing President to Grant Independence.

Washington, May 3.—Sitting as the committee of the whole, the house on Monday night voted, 193 to 151, to eliminate the provision of the Philippine bill authorizing the president to grant independence to the islands in four years. This was accepted as meaning defeat for the section on a final vote.

Throw Out Gaylord Claim.

Washington, May 3.—The house, without a dissenting vote, on Monday threw out the contest of Winifred R. Gaylord for the seat in the house from the Fourth district of Wisconsin. The house adopted a resolution presented by the elections committee with an unanimous recommendation, seating William J. Carnoy, the Republican sitting member from the district.

Chicago Banker Is Dead.

Chicago, May 3.—Andrew J. Graham, head of a big West side banking firm and once Democratic candidate for mayor, died at his home here on Monday. He had been ill ever since the "poison soup" banquet.

Bank Robbed of \$3,000.

St. Paul, Minn., May 3.—A bandit, unassisted, held up the City bank of St. Paul in the afternoon, drove the cashier and two messengers into the bank vault, picked up \$3,000 in currency and gold and escaped.

LEADERS SURRENDER TO TROOPS UNCONDITIONALLY, SAYS DUBLIN DISPATCH.

FOUR COURTS DISTRICT TAKEN

London Declares Back of Rebellion Has Been Broken—Sinn Feiners Give Up When Ammunition Supply Falls—707 Prisoners Captured.

Dublin, via London, May 2.—All the leaders of the insurrection are reported to have surrendered unconditionally. It also is reported that the Four Courts district has been recaptured.

London, May 2.—An official statement issued by the official press bureau regarding the rebellion in Ireland says:

"The general officer commanding the Irish command has reported the situation in Dublin much more satisfactory. Throughout the country there was much more to be done, which would take time, but he hoped that the back of the rebellion had been broken.

"Saturday night messengers were sent out from the rebel leaders in Dublin to the rebel bodies in Galway, Clare, Wexford, Louth and Dublin counties ordering them to surrender, and priests and the royal Irish constabulary are doing their utmost to disseminate this information.

"As regards the situation in Dublin, rebels from the areas of Sackville street, the post office and the Four Courts are surrendering freely. More incendiary fires took place in Sackville street last night, but the fire brigade is now able to resume work.

"It is further reported that up to the present 707 prisoners have been taken, included among these is the Countess Murkiewicz.

"The latest information from Ennis-corthy shows that the rebel leader at this place does not believe the rebel leader's message from Dublin, and has proceeded to that city in a motor car under escort to verify the information.

"At Now Ross, Gorey, Wicklow, Bagnalstown and Arklow the situation is reported normal. Carlow and Dunlavin are believed to be quiet.

The bullet that struck James Connolly, one of the rebel leaders, passed through a thigh bone and broke it, says a telegram to the Central News from Dublin.

Dublin, via London, May 2.—After a night of desultory sniping which awakened into feverish bursts of activity at varying intervals, the sixth morning of the Irish rebellion was quiet in the capital. The authorities believe that either the ammunition supply of the rebels is running low or that it is being conserved for a last desperate effort.

T. R. URGES U. S. TO PREPARE

Colonel Assails Pacifists in Speech Before Illinois Bar Association at Chicago.

Chicago, May 2.—Col. Theodore Roosevelt brought 1,500 Illinois and Chicago lawyers to their feet in cheering at the Illinois Bar association banquet held on Saturday at the Hotel La Salle, when he demanded universal service in the United States, modeled on the Swiss and Australian systems.

The demonstration came after he had been urging for an hour the gospel of "genuine Americanism" with no hyphen.

He declared for preparation among the industrial and social forces of the country as well as material preparation.

He asserted that a nation that only looked to the gathering of dollars in its industries and paid no heed to the preparation to defend itself did not deserve to live and have a place among the forces of the world that make for humanity's progress.

"Lincoln said this country could not endure half slave and half free. I say to you it cannot endure with a divided allegiance. There can be no divided loyalty in this country. The political hyphen is the breeder of moral treason.

"The Monroe doctrine will be no stronger than the American navy."

Big Coal Strike Averted.

New York, May 2.—The joint subcommittee of anthracite miners and operators, which has been attempting to negotiate a new contract for the hard-coal fields, announced on Sunday that a satisfactory tentative agreement had been reached. A strike thus will be averted. The agreement recognizes the United Mine Workers of America, grants an eight-hour working day, and a 7 per cent increase for contract miners, with a 3 per cent increase for day workers.

New Canadian Army Sails.

Hull, Ont., May 2.—Eighteen thousand Canadian soldiers sailed from Hull for England on Wednesday. They were carried on the steamers Metagama, Calgarian, Empress of Britain and Lapland.

Twenty Hurt in Cleveland Riot.

Cleveland, O., May 2.—Twenty men were injured in a riot when a mob of men and boys attacked a street carnival show. Two policemen fought the mob without effect until the arrival of reinforcements.

SEA AND AIR AT

It is believed the Zepplins and the German cruiser squadron co-operated in the raid on the east coast of England, the ships acting as scouts for the warships. 1—Shows the probable course taken by the Zepplins from Wilhelmshaven. 2—Shows the probable route of the German squadron. 3—German battle squadron raids English coast at Lowestoft. 4—Zepplins raid eastern counties of England and drop 70 bombs over Norfolk and Suffolk coasts. 5—Germans made air raid on Dunkirk, France. 6—British warships bombard Zebruggo and German batteries on Hoyst, Blankenburgh and Knoke.

NEW NOTE TO BRITAIN

U. S. DEMANDS RELEASE OF TEUTONS SEIZED BY WARSHIP.

London Asserts Prisoners Were Engaged in Intrigues and Plots Against the British Empire.

Washington, April 29.—Secretary Lansing announced on Thursday that the United States had sent another note to Great Britain demanding the release of the 38 Austrians, Germans and Turks taken from the American steamship Chiba by a British cruiser off Shanghai. The note was dispatched and will be given out for publication later.

Great Britain contends the men were engaged in intrigues and plots against the British government and, having been discovered, were being to Manila, where they intended to continue their efforts which would have embarrassed the neutrality of the United States.

London, April 29.—The British note replying to the protest of the American government against interferences with the neutral trade, which asserts the right of Great Britain to regulate the admission to a neutral country of goods evidently destined for the enemy, caused little surprise in diplomatic and legal circles here, as its conclusions had been discounted by recent decisions of the prize tribunals. A summary of the views of the members of these circles may be expressed as follows:

They do not believe the controversy will be carried much farther during the progress of the war as no vital concessions have been made by either side since the first note was written. Therefore, the shippers of detained cargoes who can afford the delay will await conclusion of the war to have their cases settled by an international tribunal in the belief that such a court will grant them full damages.

AIR RAIDS ROUSE THE SWISS

Action Demanded Because of German Flights Over Neutral Soil—Promises Not Kept.

Berno, April 29.—The flight of a German aeroplane over Swiss territory in the region of Porrentruy, occurring so soon after a previous similar flight over the same territory, has provoked the strongest indignation in Switzerland.

This is reflected in all sections of the press. The semi-official Bund says the time has come to demand from Germany something more than expressions of regret or excuses.

FLASHES OFF THE WIRE

Columbus, N. M., May 1.—First reports of desertion were received from the front. These said eight cavalrymen had deserted from a cavalry regiment because of the rigorous march in northern Mexico.

South Bethlehem, Pa., May 1.—The Bethlehem Steel company announced a voluntary increase of ten per cent in the wages of its 24,000 employees. This is the third ten per cent advance given the men in the last ten months.

Opens Milk Rate Inquiry.

Chicago, May 1.—George M. Brown, examiner for the Interstate Commerce commission, will begin an investigation of the rates charged for the shipment of milk in the hope of establishing uniform rates.

Rejects U. S. Board's Wage Scale.

Seward, Alaska, May 1.—The Anchorage Labor union rejected the wage scale offered by the federal arbitration board, endeavoring to settle the strike among workmen on the government's railroad in Alaska.

U. S. MEN WIN BATTLE

SIX VILLISTAS KILLED AND MANY WOUNDED IN CLASH.

Two Americans Lose Lives in Engagement With Colonel Dadd's Column Near Tomachio.

Field Headquarters, April 28, via wireless to Columbus, N. M.—Two Americans were killed and three wounded in an engagement between cavalrymen under Col. George A. Dadd and 260 Villa bandits at Tomachio, in the center of the Sierra Madre.

The Villa command under four chiefs, Bacá, Cercantes, Dominguez and Ross, was surprised in the late afternoon and routed. After the battle the Americans found six dead Mexicans and nineteen wounded, while a quantity of horses, arms and equipment was captured.

Reports received here made no mention of Villa himself being with the band, although it had been reported previously that he was in hiding in the mountains in that vicinity.

The Villa bandits were encamped in a jagged, rocky defile when they caught sight of the American column riding toward them, about 4:30 o'clock in the afternoon.

Immediately the Mexican bugles sounded the call to arms. Through the mountain pass the two commands struggled, the Villa bandits dropping all cumbersome equipment in a precipitate flight before Colonel Dadd's cavalrymen.

Once during the flight the Villa forces received reinforcements and attempted vainly to make a stand against the Americans. When night came the pursuit became increasingly difficult because of the nature of the terrain, honeycombed as it is with mountain caves, gorges and trails, in which there are many jagged rocks. Colonel Dadd pursued the Villa bandits toward Minaca, his base, where he is now reported to be awaiting supplies.

The 19 Villa wounded taken in the engagement and the 25 horses and arms captured were taken to Minaca to await General Pershing's orders as to their disposition.

DEMANDS AN INVESTIGATION

Senator Hustling of Wisconsin Aids Congressional Inquiry Into Flood of Telegrams.

Washington, April 29.—In a stirring speech on the floor of the senate on Thursday, Senator Hustling of Wisconsin demanded a congressional investigation into the flood of telegrams pouring into congress on the German-American situation. He charged that the telegrams were all inspired by a central source.

Senator Hustling characterized the sending of the telegrams as a "deceitful plot to poison the minds of the people with the belief that the president wants war."

106 BRITISH KILLED BY BLAST

Sixty-Six Others Injured in Explosion of Kent County Munitions Factory.

London, April 28.—Official announcement was made here on Wednesday that 106 persons were killed and 66 injured in the recent explosion in a Kent county munitions factory. No women were among the victims.

Senator Kern Is Optimistic.

Washington, May 2.—Declaring that "it is all over but the shouting," Senator Kern returned from his home state claiming that the Wilson sentiment in the middle West was growing very rapidly.

Carranza Doubles Taxation.

Galveston, Tex., May 2.—The Mexican consulate here was officially notified that First Chief Carranza published a decree in Mexico City doubling the amount of taxes of every kind after May 1.

CONFERENCE IS ON A LAND PROBLEM AHEAD

SCOTT AND FUNSTON MEET MEXICAN WAR MINISTER OBREGON AT JUAREZ.

MEET IN THE CUSTOMS HOUSE

Major General to Present U. S. Demands at Once—Troops Guard Street as American Commanders Cross International Bridge.

El Paso, Tex., May 1.—Maj. Gen. Hugh F. Scott and Frederick Funston met Mexican Minister of War Alvaro Obregon in the customs house at Juarez on Friday night.

The meeting was the formal preliminary to the opening of the international conference by which the right of the United States troops to continue the pursuit of Villa and his bandits in Mexico is to be settled.

General Obregon, standing in a semi-circle formed by members of his staff, all of whom were dressed in service uniforms, received the American officers at the entrance to the reception room where the conference is to be held.

General Scott, in civilian dress, advanced first and shook hands with Obregon in vigorous American fashion, then proceeded to greet other Mexican officers present. General Funston followed and went through the same formalities.

Several other prominent Mexicans, who had been invited to attend the first ceremonies, including Mayor Prieto of Juarez, were introduced. Immediately after this, Generals Scott and Funston went into an executive conference with General Obregon.

This lasted an hour and General Scott then came out and announced that the meeting had been purely social.

From the bridge to the customs house it is about five blocks. Stationed at ten paces along the route on both sides of the street were Mexican soldiers holding their rifles at present arms. There was no demonstration except a mild cheer at the conclusion of a salute sounded by a bugle corps as the procession reached the place of the conference.

BRITISH DIVER SUNK IN FIGHT

Two Members of Crew of E-22 Rescued by Teutons, Says Statement Issued at Berlin.

Berlin, April 29.—The admiralty announced on Thursday that in a naval engagement between German and British forces on Tuesday a British submarine, the E-22, was sunk and a British cruiser was hit by a torpedo. The admiralty's statement follows:

"German naval forces on April 25 sank the British submarine E-22. The Germans rescued and made prisoners two men."

"A German submarine on the same day hit with a torpedo a British cruiser of the Arctura class."

Cruisers of the Arctura class displace 3,600 tons. There are eight vessels of that class, the Arctura, Aurora, Galatea, Inconstant, Royalist, Penelope, Phaeton, and the Undaunted.

GERMAN AIRCRAFT WRECKED

Fokker Among Planes Brought Down in Day's Campaign on the Western Front.

Paris, April 28.—Numerous air raids along the western front in which German planes, including a Fokker, were brought down, were reported by the war office.

A French squadron dropped 18 bombs on La Marche station in the Vosges. One German plane attacked by the French dropped near Douaumont, badly damaged, and another fell near Montfaucon.

A French aviator, piloting a Newport monoplane, defeated a Fokker, which fell behind the German lines.

The Germans dropped shells at frequent intervals during the night in the region of Avocourt, Esnes and Fromezey.

NEW BRITISH CABINET CRISIS

Secret Sessions of Parliament Demanded by Press—Universal Conscription Demanded.

London, April 29.—A brand new cabinet crisis has been precipitated by the withdrawal of the military service bill. The bill, which was introduced Thursday, was immediately afterwards recalled because of the unrest in Ireland.

That the secret session of parliament proved an utter failure and showed weakness on the part of the government was the view vigorously expressed by the press. Many papers are demanding universal conscription without further delay.

Sixteen to Die for Treason.

Amsterdam, May 3.—A high treason trial in which 16 persons were sentenced to death has just ended at Sarajevo, Bosnia, according to the Frankfurter Zeitung. Among those condemned to death was Vasil Grgic.

British Announce Losses.

London, May 2.—British casualties for April are slightly in excess of those in March. The total from all fields of operation is 1,255 officers and 19,266 men, compared with 1,137 officers and 19,317 men in March.

(FROM THE PEORIA JOURNAL)

The Nebraska State Journal calls attention to the fact that Uncle Sam's opening of a 4,000-acre tract in the North Platte irrigation district for settlement practically winds up the "free land distribution" of the nation. It adds:

"Free or cheap land has been the American safety valve. A population straining for self-betterment has had its own remedy—to go west and grow up with the country. With the government reduced to advertising an opening of forty-three farms, the safety valve may be considered forever closed. The expansive energy formerly exerted outwardly has now turned inward, intensifying, increasing land speculation, with rapidly rising prices of land and proportionately increasing dissatisfaction among the landless would seem inevitable. The tone of our politics and the intensity of our social problems cannot but be vitally changed under the strain of dealing internally with a social pressure which hitherto has had the wilderness to vent itself upon.

"Land hunger" will soon become a reality in this rapidly growing country and the constant pressure of population, increasingly higher than the rate of production, is bound to bring us face to face with economic problems that we have heretofore considered remote. The far-sighted statesman and publicist must devote his thought earnestly to the consideration of these questions if we are to escape the extremes which curse the older nations of the world."

In the above will be found one of the reasons that the Canadian Government is offering 100 acres of land free to the actual settler. There is no dearth of homesteads of this size, and the land is of the highest quality, but such as produces yields of from 39 to 60 bushels of wheat per acre, while oats run from fifty to over hundred bushels per acre. It is not only a matter of free grants, but in Western Canada also to be had other lands at prices ranging from \$12 to \$30 per acre, the difference in price being largely a matter of location and distance from railway. If one takes into consideration the scarcity of free grant lands in the United States it is not difficult to understand why there has been most material advances in the price of farm lands.

A few years ago, land that now sells for two hundred dollars an acre in Iowa, could have been bought for seventy-five dollars an acre or less. Increased price is warranted.

Increased value of the product raised on these farms. The land that today can be had in Western Canada at the low prices quoted will in a less time than that taken for the Iowa lands to increase, have a proportionate increase. In Nebraska the lands that sold for sixteen to twenty dollars per acre seven years ago, find a market at one hundred and seventy-five dollars an acre, for the same reason given for the increase in Iowa lands. Values in these two States, as well as in others that might be mentioned, show that Western Canada lands are going at a song at their present prices. In many cases in Western Canada today, there are American settlers who realize this, and are placing a value of sixty and seventy dollars an acre on their improved farms, but would sell only because they can purchase improved land at such a low price that in another few years they would have equally as good farms as they left or such as their friends have in the United States.

The worth of the crops grown in Western Canada is of higher value than those of the States named, so why should the land not be worth fully as much. Any Canadian Government Agent will be glad to give you information as to homestead lands or where you can buy.—Advertisement.

CAMEL ARTILLERY ON WAY TO TRIPOLI

To subdue the Tripoli rebels and the Senussi tribesmen who were threatening the western frontier of Egypt troops were rushed westward from Cairo. The photograph shows some of the camel artillery being shipped.

TRENCH WARFARE
SHATTERS NERVES

Horror of It All Has Lasting Effect on Victims of the Italian Conflict.

WEIRD SCENES ARE DESCRIBED

Dr. E. Murray Auer of Philadelphia Says "Trench Dreams" of the Wounded Are Horrors of Modern Battles.

Philadelphia.—That the horrors of trench warfare, with its sudden alarms at night, the bursting of shells and the burying of men by mine explosions, have a lasting effect on the men who undergo them is the conclusion reached by Dr. E. Murray Auer of Philadelphia, Pa., who for some time was attached to the Twenty-second General Hospital of the British expeditionary force, "somewhere in France."

In a paper which was read recently before the Philadelphia Neurological Society, and which appears in the current issue of the Medical Record, Doctor Auer gives the results of his observations.

In practically all of the cases which were observed by Doctor Auer the soldiers received no appreciable physical injury, the effect being purely mental. One such instance cited by the physician was found in a boy nineteen years old. This boy had been for three days in a trench, and had been hit by a shell. At the end of that time he was threatened by his sergeant with court-martial for sleeping while on sentry duty. This led to an examination and the sending of the boy to the hospital. He was in a stupor for ten days. The same was true of another soldier who had seen his chum blown to pieces.

During the time of their coma, which in some cases lasted more than a week, the soldiers gave the impression that they again were living through the experiences which had caused the stupor to come on. This was evidenced by their terrified expressions. They crouched, started and stared wildly when spoken to. One such man rose from his bed in the middle of the night and recited in a one-sided conversation his experience of a charge and burial by a mine explosion, and then relapsed into his stuporous state.

Another result of shock, according to Doctor Auer's observations, is a continued shaking of the entire body, accompanied by various pains and unusually severe headaches. In some cases this shaking has been observed to last several days, and even weeks, although in most instances its duration is a few hours. In one instance

DAUGHTER OF SENATOR

Miss Leona Curtis, daughter of Senator Charles Curtis of Kansas, is a welcome addition to congressional circles in Washington. Though she has been in the capital only a short time, her charm and good looks have won many friends.

this trembling came after a soldier had twice been buried in a mine explosion, had been through a charge and under heavy bombardment in a trench and finally was hit by a piece of rock, which, while not injuring him, knocked him down. In his case the tremor of the head was marked, and lasted for some time.

Temporary loss of memory is a common thing with the men who have been through some extremely trying period or who have suffered a sudden shock. In such instances the recovery of memory is as sudden as its loss. One such soldier, after being near a shell which exploded, could remember nothing that happened to him until he came to himself, walking along a lane, some time later. Another man in the hospital thought himself back in the trenches and became violent, moving his cupboard about as though it were a machine gun and pointing it at his enemies. When he suddenly returned to a normal state he could remember nothing of his experience.

One of the most common, and at the same time most pitiful, of the many mental results of the struggle is the inability to sleep soundly, and recurrence of so-called trench dreams. It is not uncommon, Doctor Auer says, to see soldiers start from their beds in the middle of the night, crying out and weeping, the bodies bathed in perspiration, as they dream of being chased by Germans with bayonets, of being buried under debris following a mine explosion and of losing the trench in a fog and being unable to get back.

The fear which is commonly found is not the kind which a layman would expect. The soldiers do not fear injury to themselves. They are rather afraid of doing something wrong, a fear of an emergency in which one

may fail or lose the confidence of his comrades. In one instance the patient was afraid to go to sleep for fear he would not awake.

Blindness and deafness are frequently found, but one of the most unusual of the phenomena in this connection is the presence of photophobia, the fear of looking. In many instances men are found who complain that they cannot see. In such instances, when their eyes are opened for them, they can see without any difficulty. One instance of this came as the result of a trench dream in which the soldier again lived through his burial by a mine explosion four weeks before. When he awoke he complained that he could not see and imagined that his sight had been lost as a result of the explosion. When the eyelids were raised he could see as well as ever.

SOLDIER'S WILL IN VERSE

Testament of an Officer of the London Scottish Is Admitted to Probate.

London.—The will was proved recently of Second Lieut. Norman McGregor Lowe, D. M. C., of the London Scottish, who was killed in France on January 10. The will, dated September 21 last, made on a half sheet of notepaper, reads:

"In the event of my death, which I hope will be an honorable one on the field of battle, I appoint my brother Charles Edward Berkeley Lowe to be executor.

Bury me by the bracken bush Beneath the blooming briar, And let never living mortal kon That a kindly Scot lies there. (Signed) Norman McGregor Lowe, Second Lieutenant London Scottish. Long live the King.

WAIT FOR DEATH COMING FROM AIR

Soldiers on Macedonian Front Stand Helplessly Idle While Raiders Hover Above.

SUN BRINGS GERMAN FLIERS

Civilians as Well as Combatants at Saloniki Know That Bomb Throwers May Be Expected When Sky Is Clear.

Arnoldo Fracaccoli, well known as correspondent of the Corriere della Sera, is at present in Saloniki for his paper, and writes the following interesting account of scenes and incidents in and around Saloniki, giving a graphic word picture of the situation:

"Sunday is bomb day," he says. "The sun brings the aviators and the aviators bring the bombs, but nevertheless, the people like to see the sun shine here. It puts new hope, new warmth in the blood. The soldiers at once smile and laugh again; the chill is taken out of the air, and even the telegraph poles lose their melancholy appearance. Who knows, perhaps the wire strung on these poles will now bring us some good news? The sun is shining; the beautiful winter sun, and hope and love are revived, and the people begin to feel that things will be as they were before the war. However, that those German aviators will again make their appearance there is no doubt. They always come on sunny days, and we have to put up with it. It is war. The French aviators inspect the country from Guevghell to Petrow, bombard the German-Bulgarian positions near the border, and the German aviators come and bombard us.

"I am just now near the first line trenches, at that angle where the trenches run from west to south to the point where they connect with the British trenches, forming the right wing of this front, which then runs down to the gulf of Orfano. Names, of course, I cannot mention, but I may say that here we are about forty kilometers from Saloniki. Work is progressing in the fortification of this line, which is expected to withstand the attack that the enemy will soon make. The soldiers on this front are experts in the building of trenches and dugouts, and they were brought here for that purpose, particularly from the Champagne and the Argonne.

"A brigade commander tells me that they are convinced the allies eventually will win, but to make an attack on soldiers would be foolish, as we are not strong enough. This same commander

invited me to breakfast, and I was surprised at the luxury of the furnishings in his little room. He actually had a real table of wood, some china plates, a few chairs and some tin drinking cups. He did not object to my bringing some preserves with me, and during the meal they were quite welcome. Suddenly came the cry from the outside:

"The aviators! The aviators!" The soldiers had stopped work in the trenches and were pointing skyward. There in the blue ether at a height of only 600 meters we saw an aeroplane, and as the aviator emerged from the shadow of a cloud and the sun shone on his machine there was a cry of joy:

"A Frenchman!" But other voices were heard: "Yes, but see, there's another one coming, yes, and still another, and still another flying very high. There, those two fellows up there are Germans."

"The four aeroplanes were flying toward the border. The two lower machines were French, and they were rising higher, no doubt with the object of engaging the Germans in battle. The Germans had come from the direction of Saloniki, where, no doubt, they had thrown their bombs. Of course, the day was so beautiful that we could expect that. In the distance we saw smoke and dust rising, followed a few moments later by the sound of an explosion. The soldiers are shaking their fists at the German machines and cursing and swearing at them. Again there is an explosion, then another—this time very much nearer to us. Evidently the Germans have discovered our position and have come to bombard us, and they also have become aware of the fact that we have no guns with which to reach them.

"Sure enough, the bombs are coming directly toward us, but we all remain standing where we are. Why run? What's the use? All we can do is to separate, so that the bombs when they do fall do not fall among large groups.

"The machines are directly over us now, and we can hear the noise of the motors. Somehow we feel death hovering over us. Some of the men double up, so to speak, and sink to the ground in the natural instinct to protect themselves. There is a terrible crash, followed by rocks and stone and earth flying in the air near us. Groans and cries are heard. A bomb has fallen in our field kitchen, from which a thick, reddish smoke is rising. We can distinguish ten men lying on the ground. Five or six are able to get up, but the others will never rise again. One man had his head crushed and another's chest was stove in.

"High above us fly in the blue sky the two German aviators, going on their way undisturbed."

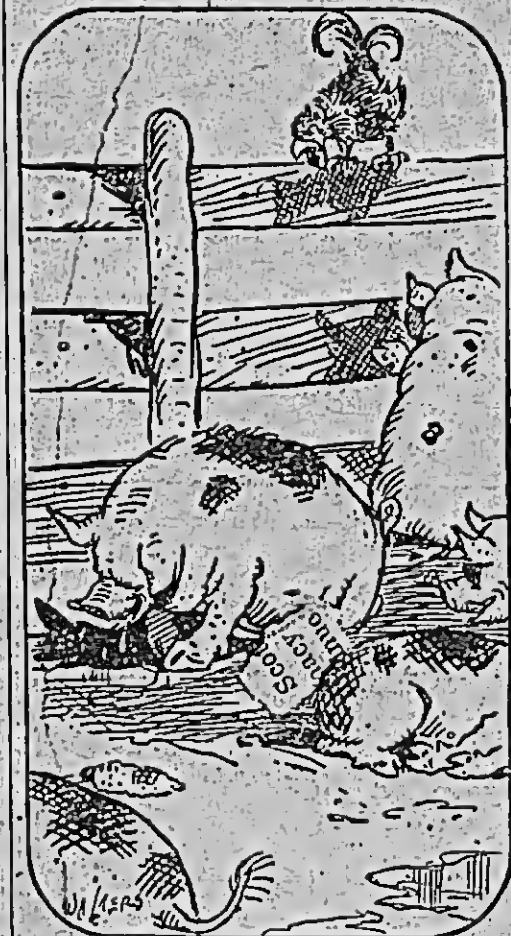

HOGS HAD FINE JAG ON MOONSHINE MASH

Poured Out in Anticipation of Raiders' Visits, Pigs Go to It.

Muskogee, Okla.—Deputy Sheriff Conley of Sequoyah county led a raid on a suspected moonshine industry at the Zach Gessett farm, six miles from Vian. According to the officers, advance information of the attack had been obtained and they could find no "worm," so that an important link in the suspected case was missing.

The officers said they arrived at the moment when they supposed the mash would be "ripe." There were 180 gallons of it, they declared, but it had been poured out, and 24 fine hogs had "gone after it."

Conley said, in effect, that the swine had one of the most approved jags ho

One of the Most Approved Jags He Ever Saw.

had ever seen. Most of the animals were inclined to playfulness, according to the deputy sheriff, and performed most unusual antics for an hour or so, while others fought until the effects of the mash began to simmer, when the hogs lay down, chucked softly and went to sleep. According to subsequent advice, he said, the hogs had only a mild "hang-over" when they awoke.

SLAYER PLANS OWN DEATH

Murder and Suicide in Town in New York Reveal Tragic Story.

Middletown, N. Y.—Harry Newkirk is believed to have killed Maud Blazington near Summitville because, after she had lived with him for a year as a common law wife, she refused to marry him and joined another man.

A year ago the couple announced their marriage and took furnished rooms in a Port Jervis boarding house. It is said that they were at first happy. A month ago Newkirk learned that another man was attentive to her. Then she left him and he could not induce her to return. She applied to Justice Devans at Port Jervis for a warrant, charging Newkirk with white slavery.

The warrant was not issued. She consulted an attorney and he advised her to swear out a peace warrant. Miss Blazington came to Middletown, followed by Newkirk. Then she started for Summitville with Newkirk following. He killed her after they left the station.

Newkirk's death was not an accident, as at first supposed. He lay down on the railroad track with his head upon a rail.

The couple grew up together and when Newkirk became older he wanted to marry Miss Blazington. She would not agree, but finally went to live with him. She was known to her relatives and friends as Mrs. Newkirk.

LONDON LIKES POLICEWOMEN

Their Efficiency Overcomes Opposition That Was Violent—Win Way by Tact.

London.—Although at first violently opposed to policewomen, England, after six months' trial, is beginning to like them.

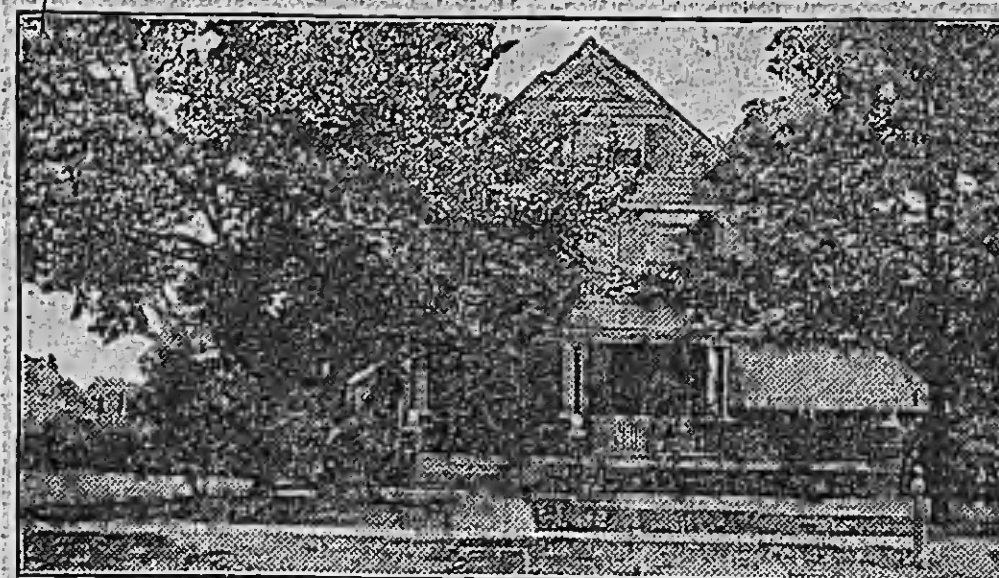

The first report of the policewoman's organization shows that, contrary to the popular expectation, it is just their tact which is earning the policewoman a good name.

How the policewomen intervene to stop street fights is told in the following typical report:

"A serious fight was taking place between two drunken soldiers who should have been in camp. The men had taken off their coats to fight. The policewomen cleared the crowd, separated the fighters, persuaded them to put on their coats and made them shake hands and return quietly to camp."

Re-wed With Old Ring.

Now York.—Using their old wedding ring, Louis N. Raphael and Viola Feltz Raphael, who were divorced last year, have been married again. "I just couldn't get along without him," declared Mrs. Raphael.

The HOME BEAUTIFUL
Flowers and Shrubbages
Their Care and Cultivation

The Neatest Yard Has a Smooth Lawn.

THE FRONT YARD

By E. VAN BENTHUYSEN.

The neatest yard now has a smooth lawn grass sown kept closely mown, while the flowers and shrubbery are restricted to the sides and rear. This not only renders the lawn more easily kept than where there are flower beds to mow around and trim, or trees or shrubs to dodge, but it is really more restful in appearance.

If there is room for only one shrub, let it be *Hydrangea paniculata*, the magnificent tresses of bloom lasting for weeks.

It should be cut back every spring fully half of the previous year's growth. While this may go against the will it assures larger blossoms and more of them.

A liberal mulching with stable manure is also in order. Roots may be transplanted in either spring or fall.

The *Deutzias* have extreme hardiness, neat form, profusion of bloom and early blossoms to commend them, and are worthy of a place in any collection.

Several of the *Spiraeas* are beautiful with graceful rose colored or white blossoms. While not all of these withstand the late frosts which come in May, just when they are ready to put forth their feathery bloom, the beauty of the blossoms when they are perfect atones for an occasional misadventure.

Among June blossoms none are greater favorites than the syringa or rock orange, the flowers being as fragrant as beautiful. While the shrub itself is perfectly hardy, late frosts sometimes kill the buds; and an observing grower gives the rule that there will be orange blossoms when there will be peaches. *Calyculatus* is a curious shrub, the brownish blossom being odorous of strawberries, yet with so many beautiful as well as fragrant blossoms it could scarcely head the list. Purple fringe is an odd plant, the same smoke tree perhaps more accurately describing the appearance after midsummer, when the pedicels lengthen, branch and bear long plummy hairs, either greenish or tinged with red.

The *Spigelia* is handsome when in bloom, the tubular blossoms of white, rose or purple being produced in profusion. A variety with leaves variegated with gold is especially pleasing.

Instead of planting in rows the fancy is now to group the shrubs and the flowers for cutting. Place the taller ones in the rear with the shorter ones in front.

Arrange that the blooming season shall be prolonged throughout the

summer and see that no two specimens with blossoms which do not harmonize in color shall be in bloom side by side at the same time.

PLANTS FOR NORTH WINDOWS

By BETTY PAKE.

To make boxes in windows with a northern exposure attractive and cheerful fill them with the following plants:

For vines, plant either variegated *Violas* or English ivy, or both intermingled. *Violas* are very bright, but they will not survive exposure to freezing temperatures, while English ivy will stand unharmed all through the winter. Either of these vines should be planted about one foot apart. The main part of the boxes can be planted with begonias, which can be prepared from any florist in various colors, white, pink, red. The boxes, if planted wholly with material of a uniform height, are apt to have an artificial appearance, to prevent which, plants that grow taller and having a more graceful habit should be placed, say, one to every half dozen of the others, and for this purpose few plants equal *dracaena terminalis*.

Panicles do fairly well in the shade, and so does *salvia* or scarlet sage. If English ivy is used for a vine, it will be found to be of advantage in that when the other plants in the boxes are killed by frost the ivy remains and can be left all winter, with the space taken up by the other plants filled with small evergreens.

OLD-FASHIONED FLOWERS

The rose-geranium slip planted early in May will soon become an immense plant with most luxurious foliage, which is one of the prettiest things for finishing your bouquet.

The leaves can be used for scenting handkerchiefs, boxes, and a leaf placed on top of your jelly will give it a delicious flavor. When only a few flowers are grown do not depend on the mignonette alone for fragrance. There are many other fragrant plants that have the added advantage of being beautiful in form and color.

BRUGMANSIA

Brugmansia is a tender greenhouse shrub, and if started out of doors in the spring must be potted before frost. The flowers are beautiful—first a pale cream, turning to a pure white. They are trumpet shaped and the shrub is sometimes called "Angel's trumpet."

A Telephone Message.

Notice

All persons knowing themselves to be indebted to me, must settle by bankable note or cash in ten days. Call at State Bank, C. F. Chinn.

Daily Thought.

Certainly, in our little sphere, it is not the most active people to whom we owe the most. It is those who live like the stars, which simply pour down on us the calm light of their bright and faithful being, up to which we look, and out of which we gather the deepest calm and courage.—Brooke.

Wm. Girard transacted business in Kenosha Tuesday.

Dr. Beebe transacted business in Chicago, Wednesday.

Wall paper at King's drug store. We have the goods in stock.

Alabastine

FOR 35 years Alabastine has been the choice of housewives who take particular pride in the decoration of their homes.

For 35 years Alabastine has been sold everywhere by paint, hardware, drug, and general stores. It is known by dealers and users alike as the "tint beautiful" for walls and ceilings.

Alabastine is a dry powder that mixes perfectly in cold water. You can apply it yourself or your local painter will do the work reasonably, be sure that you get Alabastine brought on the job in properly labeled packages.

Free Color Plans

The best decorators advise the use of stencils to produce contrasting wall and ceiling borders. Ordinarily, stencils cost from 50 cents to \$3.00 each; but if you will send for the free "Alabastine Pocket," containing hand-colored proofs of 12 of the very latest stencil effects, we will tell you how you can have your choice of these and 500 others at practically no expense. Write today for this absolutely free decorating service.

Alabastine Co.

NEWS and GOSSIP of WASHINGTON

American Flag Under Lions That Look British

WASHINGTON.—Four bronze lions, said to be exact copies of those on the Trafalgar square Lord Nelson monument in London, couchant on flags presumed to be the American colors, form a group on the Grant monument in the Botanic garden, which is attracting much comment at present because of the un-American idea the lions convey by reason of their position over the flags. Although the group has been in position for some time, this peculiar feature has apparently escaped notice until recently. The additions just being made attracted closer attention, however, from the casual observer.

The figures of the lions which have given rise to comment form the centerpiece of the monument. This section, therefore, is the most conspicuous. The center is raised, and on this elevated base is the large tablet on which the inscription is to be placed. Around this base, at each of the four corners, is a crouching lion, under whose body is stretched a flag, which, by the American eagle forming the head and by the fact that it is a monument to an American hero, might be taken to be the American standard.

The fact that the lions are copies of the British lions on the Trafalgar square monument in England and the sight of the flag stretched under their bodies has caused many tourists and other observers to wonder just what the motif of the group is intended to express.

To an artist perhaps the proud attitude of the crouching figures might convey an air of heroic protection, but to the ordinary mind this same proud appearance might mean haughty possession, and it is this latter impression, probably, which has caused the inquiries to be raised.

Commerce Department Talks of Volcano Foundry

A PROPOSED novel co-operation with nature in a manufacturing enterprise, whereby the great volcano of Kilauea of the island of Hawaii would be made to serve as a gigantic foundry for casting sewer pipe and bricks, is arousing interest among officials of the United States department of commerce.

This interest is not only in the scheme as a general commercial feature affecting production and freight movements in territory comprising the United States. Every effort is being made by the territorial government to foster other industries than the dominant ones of sugar production and pineapple canning in order to solve pressing economic problems, and a suggestion has been made by the governor of the islands that congress authorize the federal department of commerce to co-operate in the work.

The possibilities of casting sewer pipe from the molten lava of the volcano have been studied by a retired pipe manufacturer from the United States who recently visited the island, and he has even suggested details of the procedure by which "buckets of exceedingly refractory material on an endless chain would bring the molten lava from the bed of the crater to its rim, where the pipes would be cast. Buckets capable of resisting 2,000 degrees Fahrenheit easily can be provided, it is declared, while the temperature of the lava has been found from scientific observations to be about 1,300 degrees. At such a high degree of heat the lava, it is believed, would remain liquid during the short time necessary to transport it to the molds.

Though the plan is so out of the ordinary that it sounds almost visionary to the layman, it is explained to the commerce department by its agents in Hawaii that Kilauea presents one of the best opportunities known anywhere in the world for industrial utilization of the earth's natural heat, since the lake of molten material is accessible and relatively quiescent, and workshops may therefore be erected and manufacturing operations carried on close to the rim of the crater.

Senator Reed's Secretary Bests the Constable

DON HUNT of Kansas City, secretary to Senator Reed, is the hero of District of Columbia motorists by reason of his victory over Maryland constables who arrested him Sunday for driving his "diver" into the state without a Maryland license. Hunt's machine was adorned with Washington and Missouri tags, but the Maryland officials held that this was not sufficient. They escorted Hunt to a justice of the peace, who promptly assessed a fine of \$5. Hunt demanded to be shown the section under which he had been penalized, and was produced with the result that Hunt pointed out to the J. P. that as a nonresident he was entitled to drive through Maryland seven times without a license.

"I am willing to take oath that this is my second invasion of Maryland," said Hunt. The J. P. perused the law and reluctantly handed back the fine. Under a recent decision of the Supreme court of the United States residents of Washington are required to have both Virginia and Maryland licenses in addition to the District tax if they desire to tour the neighboring commonwealths. Hunt, however, has convinced the Marylanders that this ruling does not apply to Missourians unless they exceed the tourist limitations.

Col. Harts Training His Watchmen to Be Camels

COL. W. W. HARTS, superintendent of public buildings and grounds, who is an advocate of preparedness, is putting his "watchman's brigade" at the state, war and navy building through a course of training for service in northern Mexico or any other old waterless waste where they may be needed.

As one of the features of the course, the colonel has removed all the watercoolers from the corridors. And as the watchmen must now walk through miles of corridors and up and down long flights of stairs to get water, the result is twofold: Most of the men are developing a remarkable endurance against thirst, while others—those who must have water—are developing the muscles they would have to use on long marches and mountain climbing. In a sense, also, the "brigade" is getting practice in the use of firearms. Ever so often in the work, usually after the departments are closed for the day, the colonel gets his assistant to turn in a fire alarm in some remote corner of the building.

Thorough thirty-odd watchmen in brass buttons and blue coats go tearing through corridors and bounding up stairways carrying fire extinguishers. These hand grenades are aimed at the imaginary foe by that section of the "brigade" which, for purposes of military training, may be regarded as the machine-gun platoon, while those assigned to the heavier artillery handle the heavy hose hoses.

Monday afternoon, however, is the time when the colonel takes greatest pride in his brigade. Promptly at 3:30 o'clock, the members of the "brigade" line up on the lot back of the state, war, and navy building, and are inspected.

The colonel, with his assistant acting as adjutant, walks slowly along the line in front of the men, and then along the line in back of the men, inspecting the hang of their clothes and the erectness of their carriage.

HOUSEMAIDS TO TAKE OFFENSIVE

Organize Union for Avowed Purpose of Bringing Mistresses to Terms.

TO TRAIN EMPLOYERS

Plan to Enforce Their Demands by Wearing on Nerves of Individual Mistresses—Lazy Girls Are Especially Desired.

Denver, Colo.—Twelve dollars a week and no work on Sundays, shorter hours and better treatment are some of the things the Housemaids' union of Denver demands for its members.

"We have the bulge on the rich women of Denver because they won't wash their own clothes. We can rule the women of Capitol Hill through this falling of theirs," the girls decided. Plans to whip their mistresses into line through their dislike of greasy dish water were made during the meeting.

The new union will call no general strike. Its members will wear on the nerves of the individual employer until she comes to terms.

Will Travel Light.
The women of Capitol Hill are to be trained in the way they should go. Maids who leave their jobs once a week, serve meals late, take no back talk, and demand the privileges for which they have been seeking in vain, are going to do the training.

In order to carry out this plan of campaign many maids for mistresses who are being "trained" will rent a house where they can live between jobs. The new cook or second girl will never arrive at her employer's home with her trunk after this. She will travel light, so she won't have to be constantly paying to have her baggage hauled around the city. And while she sits merrily from Capitol Hill to Aurora her trunk will remain safe and secure, locked in the baggage room of the union home. If she has a child it will be cared for at the home while she works.

Cross and undesirable mistresses are going to be blacklisted by the union. At the office to be opened downtown as soon as the place can be found, there will be a long list including the names of every employer of house servants in Denver. And opposite each name its owner's characteristics will be put down without mincing words. How many rooms

Take No Back Talk.

there are in your house will be set down, how many children and how well or ill-trained they are.

Lazy Girls Are Wanted.
Employers will not be able to get maids who are out of work to come to them by putting an advertisement in the paper promising "excellent wages" when she expects to pay three dollars a week. Maids won't have to run up telephone bills and pay far finding out how undesirable one may be as a mistress. All this information will be neatly filed away on a card.

No girl will be kept out of the union because she is lazy or incompetent. In fact, large numbers of lazy girls are especially desired as members, the better to train the mistresses of Denver into an understanding of their proper place.

PUTS BAN ON FAT TEACHERS

Directors of Pennsylvania School Say They Are Unable to Climb Hills.

Pottsville, Pa.—Candidates for positions as teachers in Pottsville's public schools must be neither "fat" nor "fleshy," the board of school directors has ruled.

It was said fat teachers would be unable to climb the steep hills while the "fleshy" teachers would pay too much attention to their personal appearance.

Hat Made of Money.

AFTER SIX YEARS OF SUFFERING

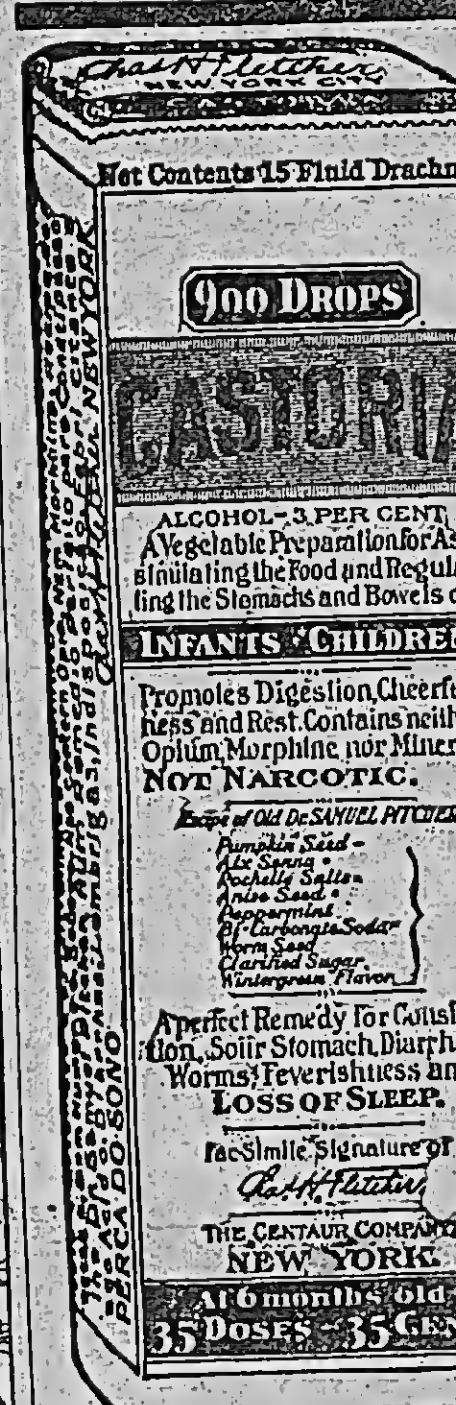

Woman Made Well by Lydia E. Pinkham's Vegetable Compound.

Columbus, Ohio.—"I had almost given up. I had been sick for six years with female troubles and nervousness. I had a pain in my right side and could not eat anything without hurting my stomach. I could not drink cold water at all nor eat any kind of raw fruit, nor fresh meat nor chicken. From 172 pounds I went to 118 and would get so weak at times that I fell over. I began to take Lydia E. Pinkham's Vegetable Compound, and ten days later I could eat and it did not hurt my stomach. I have taken the medicine ever since and I feel like a new woman. I now weigh 127 pounds so you can see what it has done for me already. My husband says he knows your medicine has saved my life."

Mrs. J. S. BARLOW, 1024 South 4th St., Columbus, Ohio.

Lydia E. Pinkham's Vegetable Compound contains just the virtues of roots and herbs needed to restore health and strength to the weakened organs of the body. That is why Mrs. Barlow, a chronic invalid, recovered so completely. It pays for women suffering from any female ailments to insist upon having Lydia E. Pinkham's Vegetable Compound.

Mrs. VanOdel returned from Chicago Tuesday accompanied by a sister from Cleveland, Ohio.

Mrs. George Patrick and Mrs. Chas. Barber were in Madison, Thursday and Friday as delegates to the teachers meeting convention.

Miss Mary and Leora Sheen and Miss Anna Hohn attended the Sunday school convention at Kenosha, as delegates from Liberty Sunday school.

Mrs. Maggie Parks was pleasantly surprised, Monday, May 1, by a visit from her sister Mrs. Del Harrison and Mrs. D. Spencer both of Milwaukee. The occasion being her birthday.

Saturday April 29, a surprise party was held at the home of Mrs. Evans, the guest of honor being Mrs. Pitcher who would celebrate her eightieth birthday on Sunday. The afternoon was spent in social converse, a dainty lunch was served by the guests.

MILLBURN

Rev. Geo. Mitchell has an auto.

Mr. and Mrs. E. M. Cannon spent Wednesday in Area.

Mrs. A. K. Bain visited Mrs. Clarence Bonner the past week.

The Ladies Aid Society served supper Thursday. Seven ladies help serve.

Leslie Bonner returned home Monday from Three Oaks Michigan.

Eugene Strang and son George Strang of Waukegan called on relatives Sunday.

A Reception was held at home of Rev. and Mrs. Safford Friday afternoon to welcome Mrs. Januette Mathews home.

JUST A LITTLE SMILE

Strategical Move.

Mrs. Close—I'm writing to ask the Browns to meet the Joneses here at dinner, and to the Joneses to meet the Browns. We owe them both, you know.

Close—But I've heard that they've just quarreled and don't speak.

Mrs. Close—I know. They'll refuse, and we won't have to give a dinner party at all.

Doing Her Worst.

He (after the quarrel)—I suppose you are going back to your mother's.

She (triumphantly)—I shall do no such thing. On the contrary, I am going to the most expensive hotel I can find and let them send you the bill.

The Young Wife.

"Hubby, didn't I understand you to say that the produce exchange is near your office?"

"Yes, my dear."

"Well, I just wish you'd stop in there and exchange these eggs for something fresher."

Not a Steady Job.

Sandy—I suppose you've heard about 'em laying MacGregor off the docks after thirty years' service?

McTavish—Tut, mon! you's mistaken fault. I told him when he took the job 'twould no be steady work.—Judge.

The Passionate Pilgrim.

He—Didn't I write to you every day, and now when I come back I find that you've been flirting all over the place!

She—Dearest, they were such passionate letters I couldn't help it!—Dulcinea (Sydney).

REMARKABLE.

"He's got a remarkable wife."

"In what way?"

"She always remembers to buy matches before the last box is used."

Forebodings.

"A penny for your thoughts," quoth he, And quite expensive that is; For when we're married, I foresee You'll give them to me gratis."

Modern Efficiency.

"I don't see how Adela could possibly stop to get married. She has such a passion for travelling."

"But she did it to save time."

"How's that?"

"She married a shipping clerk and now he packs all her trunks for her."

Providential.

A Jewish rabbi, whose stipend was small, was asked how he was getting on. "Poorly," he answered. "If it were not for the numerous fasts which our religion prescribes I am sure my family would die of starvation."—Boston Evening Transcript.

No, Indeed.

Country Girl—Yes, that's lover's leap. Many a disappointed lover has jumped over there. Do you love me enough to do that?

City Admirer—What! And leave you to some other fellow?

Too Much Gab.

City Chap—Yes, indeed! I own three banks and several railroads.

Farmer's Daughter—Papa said last night you talked like one of those fellows he believed in making pay their board in advance.

EMPIRE Mechanical Milker

One man, using only one double unit, can milk 20 to 30 cows per hour, besides doing the stipping and carrying the milk. Single Units, each of which will milk 10 to 15 cows per hour, can be had if preferred. One man can operate two or three single units.

Helpers and old cows both like the EMPIRE Milker and take to it quickly. The frequent increase in milk flow proves that.

The illustration shows you the Double Unit outfit in actual operation, except for the small pump and tank which supply the vacuum. Any suitable power will drive the pump.

Effectively

It Can Be Run
Wherever Convenient

Hand milking is a hard job in cold weather. In fly-time, after a hard day's work or any other time—especially hard when you are short-handed. The EMPIRE Milker takes care of a job nobody likes. Pays you a handsome profit. Insures your cows always being milked regularly, quickly and uniformly. It's goodbye to hand milking and everybody glad of it.

The EMPIRE Milker is a fine machine. Absolutely reliable. Successful everywhere. Guaranteed by the Empire Cream Separator Company. See to yourself how simple, sure and reliable it is. Will be glad to show it to you at your first opportunity.

LOCAL AGENT, ANTIOCH, ILL.

Buy an Up-To-Date Low Corn
King Spreader

PLEASE note that in the Low Corn King the box is narrow—only 45 inches in width. The Low Corn King can be driven into a modern barn and loaded directly from the stable. That saves work.

The spread is eight feet or wider. That shortens the unloading time. The manure is thrown well beyond the wheels. That enables the driver to match up the edges of his strips without driving on manure-covered ground. You know what a big advantage that is.

The manure gets two thorough beatings. It lands on the ground in a finely-pulverized condition. The soil immediately takes up the fertilizing properties. There is no loss or waste of valuable fertilizing material.

Buy an up-to-date, wide spreading Low Corn King spreader from the local dealer.
